

Eun-Ho Lee: [\(Bio\)](#)

Eun-Ho Lee is an Associate Professor at Sungkyunkwan University (South Korea) and an Adjunct Professor at San Jose State University (California). He concurrently serves as an advisory professor for the Samsung Future Tech Council and LG Electronics. Prior to joining academia, he worked at the General Motors R&D Center (Michigan) and the Samsung Electronics Semiconductor R&D Center (South Korea). His research interests include metal forming processing, physical AI for autonomous manufacturing, and advanced semiconductor/packaging manufacturing.
